## EXPERIENCE

### Graphic Designer

**AM-PS** - New York City, 2024 to Present

- Sole marketing designer for end-to-end assets (RFQ/RFP pitch decks, flyers, signage, and data visualizations) supporting leasing strategies across dozens of properties in multiple states
- Daily integration of AI tools to streamline workflows, enhance imagery, and accelerate content production

### Graphic Designer & Illustrator

**Ceci New York** - New York City, 2023 to 2024

- Led visual design across illustration, typography, and brand systems for high-end print and digital event materials
- Developed pitch decks, mood boards, and product concepts (paper, fabric, packaging), from concept through production
- Acted as a key liaison between internal teams and external manufacturers, ensuring quality, timelines, and design integrity
- Contributed to creative direction for custom client projects, balancing brand vision with production feasibility

### Illustrator, Graphic Designer & Motion Designer

**Evite** - Los Angeles, 2021 to 2023

- Contributed to creative direction for custom client projects, balancing brand vision with production feasibility
- Managed multiple design projects simultaneously, delivering high-quality assets within fast-paced production timelines
- Collaborated with cross-functional teams to develop engaging, on-brand visual content optimized for digital performance

### Product Designer, Illustrator, Graphic Designer

**Spin Master** - New York City, 2020

- Led from concept development to final product graphic design for the launch of Mini Brands board game
- Produced high-quality product renderings and presentation materials for stakeholder and partner reviews, including Disney
- Contributed to cross-functional product development, aligning visual design with brand and manufacturing requirements

### Product Designer & Illustrator

**Hasbro** - Los Angeles, 2018 to 2019

- Designed graphics and product assets for the launch of Disney Princess Royal Clips, contributing to a major licensed product line
- Produced detailed turnaround and control art for 3D modeling teams, ensuring accuracy from concept through production
- Consistently active in R&D for product concepts and initiatives
